a stunning space, different than any other.*

8141 White Quartz, island, Decor Kitchens, Israel

Nature's Beauty Shines Through

Concetto™ surfaces are handmade from individually cut and bound semi-precious stones. The vividly colored semi precious stones are transformed in a process which captures and enhances their innate brilliance. The result - luxury surfaces which will give your interiors the wow factor you're after. For even greater impact, some of the designs have a natural translucency which can be backlit to create a truly inspirational atmosphere.

8551 Amethyst, console table

8311 Gray Agate, stairs

8310 Brown Agate, island

An Exceptional Finish

Concetto™ surfaces, created with dimensions of 141.5 x 302cm and a thickness of 25mm, have outstanding looks with in-built durability. They are also easy to care for, since there's no need to seal, polish or wax them. Surfaces simply need cleaning with mild detergent to keep them looking like new for years to come. Concetto™ surfaces are heat and scratch resistant too, making them practical and hard wearing.

Uncompromising Quality

Every Concetto™ slab is a unique creation. Our quality control is second to none as we check each slab individually before declaring it flawless. We are also committed to the highest safety and eco standards, and take great pride in becoming the first quartz manufacturer to achieve the ISO 14001 international standard for environmental management and performance. All our products meet the stringent American Greenguard standards – and we are proud to have NSF (National Sanitation Foundation) accreditation which means our surfaces are safe enough for use in labs, healthcare facilities and food prep environments. To guarantee your complete peace of mind, rest assured that all Concetto™ luxury surfaces come with a comprehensive warranty.

Globally Present

Caesarstone has showrooms and dealerships in over 40 countries worldwide - no matter where you live, our professional support network will provide you with efficient service and the highest level of customer support.
